Directory of Registered Neighborhood Associations

This directory, produced by the City of Chattanooga Department of Neighborhood Services and Community Development, provides contact information for each neighborhood organization in the city that has registered with the department.

The purpose of this directory is to ensure that organizations are easily accessible to potential new members, city departments, city officials, neighborhood associations, developers, the Regional Planning Commission and others that may be of benefit to the neighborhoods they represent.

This directory is updated annually. There is also a database that is updated more frequently on the Department of Neighborhood Services and Community Development web page of the City's website at www.chattanooga.gov.

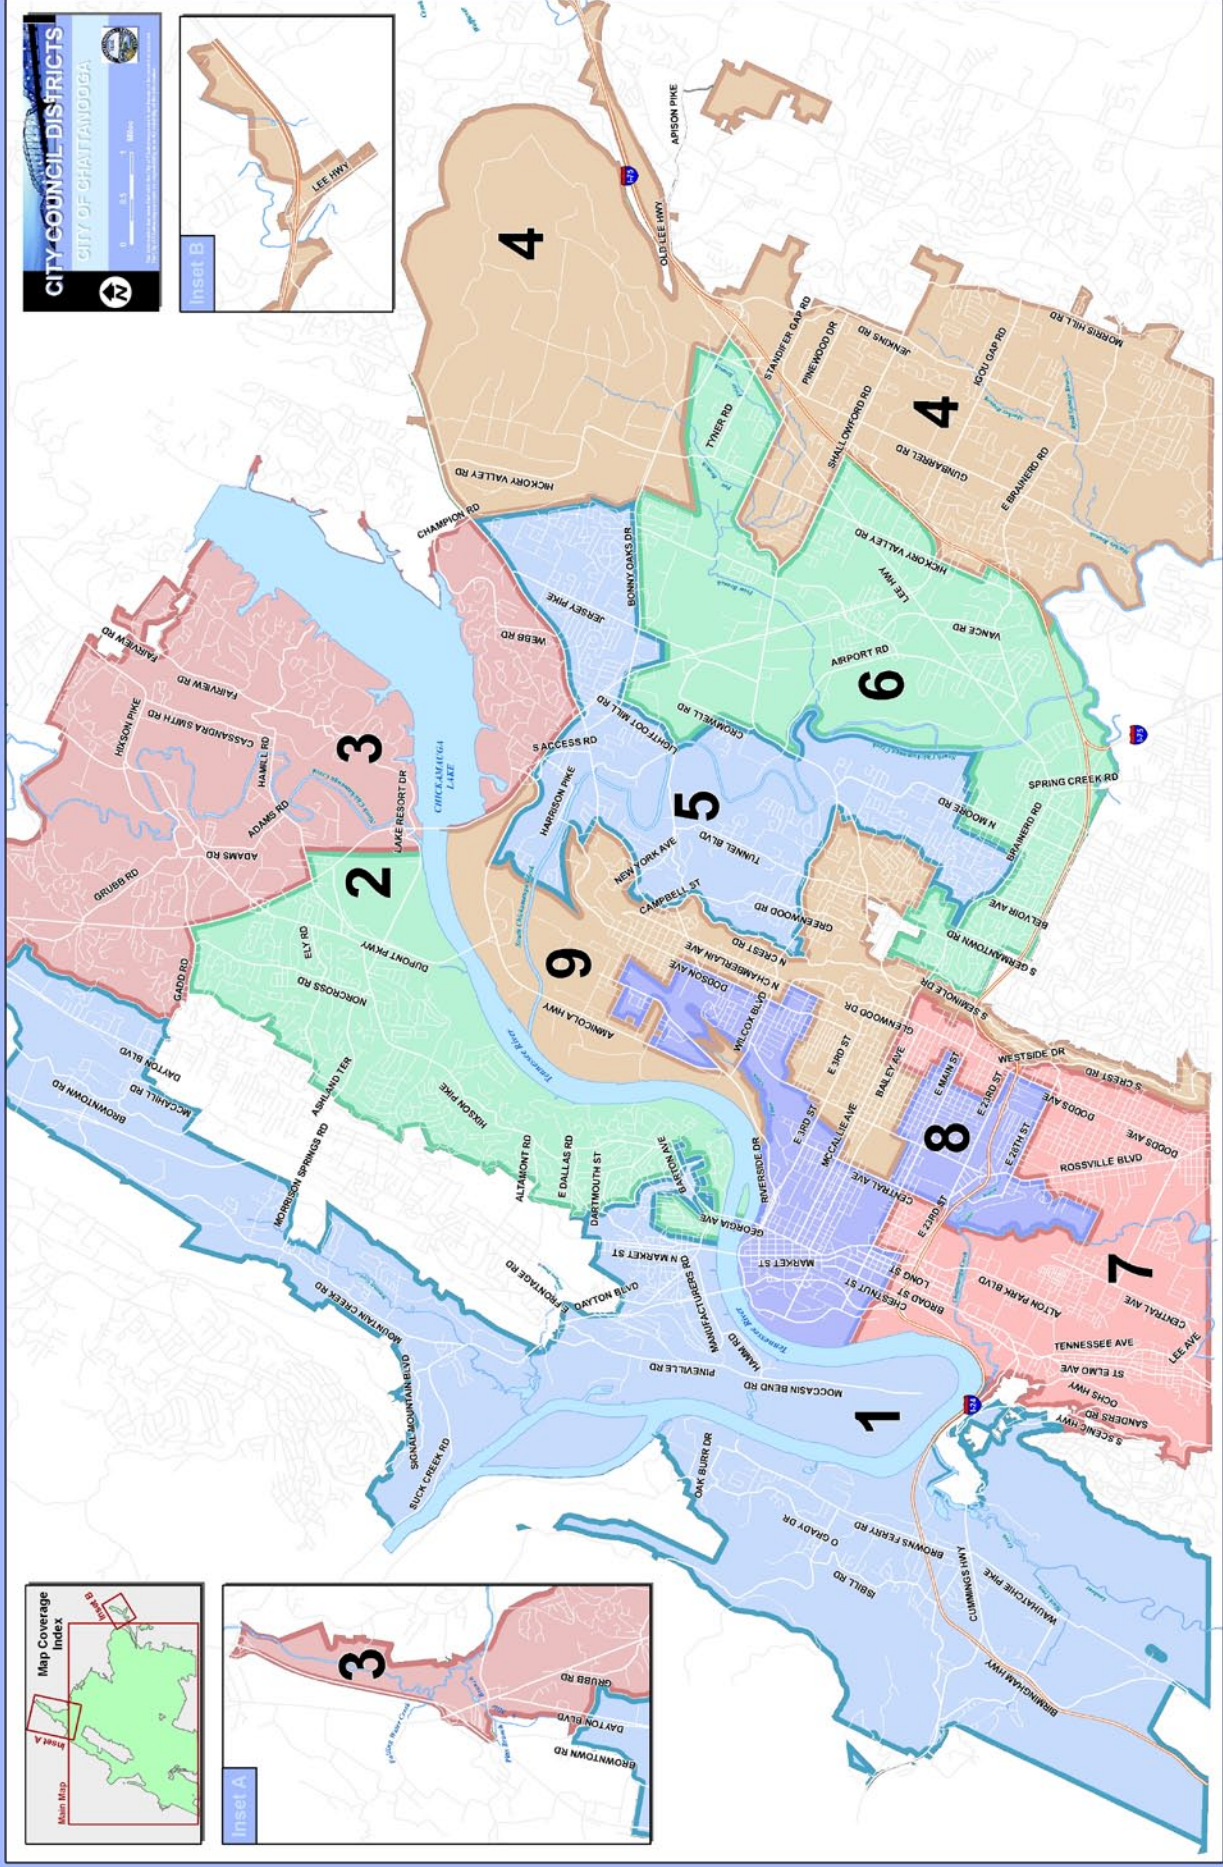

You can help keep this directory current by registering a new neighborhood association or notifying the department of newly elected officers. If you find discontinued phone numbers or email addresses that bounce back, call 425-3700 or email webneighborhoodassoc@chattanooga.gov.

Contact neighborhood association presidents for information about meetings dates and locations.

Out of respect for the neighborhood leaders whose contact information is included in this directory, the City of Chattanooga asks that this information not be used for commercial purposes or to solicit monetary donations.
